Members’ Business motions that have not achieved cross party support

*S5M-11590 Fulton MacGregor: Paternity Leave and Tackling Inequality—That the Parliament notes that dads, partners of adopters and intended parents having babies through surrogacy are entitled to one or two weeks’ statutory paternity leave; believes that challenging the presumption that women are primarily responsible for raising children is key to tackling wider societal inequality, including the gender pay gap; notes international research showing a link between increased paternity leave and a range of positive outcomes, including greater maternal wellbeing and reduced incidence of postnatal depression; understands that some employers offer enhanced leave or pay, including the Scottish Government, which offers staff four weeks’ paternity leave on full pay, and notes the view that families across Scotland, including in the Coatbridge and Chryston constituency, would benefit from such practices being adopted by other employers.

*S5M-11582 Fulton MacGregor: Support for Families of Missing People—That the Parliament recognises the suffering of thousands of families across Scotland who have experienced, or will experience, a loved one going missing; understands that, every year, over 30,000 children and adults will be reported missing, of which, thankfully, many will return quickly but that, tragically, others will remain missing for weeks, months or even years; believes that, despite the excellent work of Police Scotland in searching for missing people, the families who are left devastated receive little or no emotional, practical and legal support in coping with the disappearance of their missing loved one; acknowledges the campaign of the family of Sean McKenna, who went missing in Coatbridge in 2017, for more support for families of missing loved ones; further acknowledges the National Missing Person’s Framework, which was published by the Scottish Government in 2017; notes the view that this should be implemented in every local authority area, and further notes the calls for more to be done to support the families who are living a nightmare to ensure that every person who is missing a loved one is offered support and help.

Supported by: Clare Haughey*, Sandra White*, Joan McAlpine*, Ash Denham*, Graeme Dey*, Stewart Stevenson*, Richard Lyle*, Bob Doris*, Kenneth Gibson*, Jenny Gilruth*
**S5M-11539** Mark Ruskell: Civil Contingency in Nuclear Weapon Transport—That the Parliament understands that the Ministry of Defence regularly transports nuclear weapons on public roads in convoys that pass through or close to communities in the Argyll and Bute, Dumfries and Galloway, East Dunbartonshire, East Lothian, Edinburgh, Falkirk, Glasgow, Midlothian, North Lanarkshire, Renfrewshire, Scottish Borders, Stirling, South Lanarkshire, West Dunbartonshire and West Lothian local authority areas; believes that there is an inherent risk in transporting high explosives and radioactive material together on public roads; understands that information on what to do in an emergency involving a nuclear reactor is regularly circulated to residents close to the Coulport and Faslane bases but that no equivalent information relating to an incident involving nuclear weapons is available to communities along the regular convoy route; believes that although defence is a reserved matter, it would be for the civil authorities such as police, fire and rescue and local authorities to attempt to respond to any emergency as so-called category 1 responders, and notes the view that these civil authorities must have sufficient assessments and plans in place to respond.

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

For each Bill, the date of the next (or most recent) event in the Bill’s passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member’s Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
